

1st Williamsburg Scouting – Covid-19 Screening Checklist

- This tool has been developed to help reduce the risk of transmission of COVID-19 among members.
- The tool is meant to be used to assist with assessing members who may be symptomatic, or who may have been exposed to someone who is ill or has confirmed COVID-19.
- Members should fill out this checklist prior to participating in the activity or program.
- Children and youth will need a parent to assist them to complete this screening tool.
- Scouters, parents or guardians and youth must not attend the programs or other Scouting activities if they are sick.
- Where there is another sick person in their household, the member should consider carefully if they should attend.

If an individual answers YES to any of the questions, they must not be allowed to attend or participate in the activity or program.
